Guided Self-Study Methods
Academic Achievement of Biology Students
Different Intelligence Levels
Issue Date:
1978
Publisher:
Regional Institute of Education, Ajmer
Series/Report no.:
Accession No.DZ1
Abstract:
The experiment is the only means for settling disputes regarding educational practice, as the only way of verifying educational improvements, and as the only way of establishing a emulative tradition in which improvements can be introduced without the danger of a faddish discard of old in favour of inferior novelties. Yet in our strong advocacy of experimentation, we must not imply that our emphasis is new.
